ASSEMBLY ORIENTATION

Attorney Mead provided a summary of the Northwest Arctic Borough Charter/Code Overview, Alaska Constitution and Title 29. Member Sampson raised concern to direction to Administration from Assembly is at ten million; the recent payment received from Teck there were not allocated to the contingency fund. The issue to the fund; because no PILT where and how can we bring resources to bring that fund to ten million? Member Sampson also raised concern to any dipping into the general fund for the administration? If did, how much of the funds did we use? He also raised concern to contracting under article two, execution of contracts to any projects? And how many have there been? Member Loon mentioned the outside hire for contracts within the Borough; why can't our people can't be locally employed through the contract?

President Weisner summarized the redistricting that happen in 2011; how each seat represents by census that occurred in 2010. Member Westlake expressed the importance of all people not only the village they reside in. He think that there should be someone on the committee they represent for that district. Vice President Nelson raised concern to appointment of committees; although members request and it’s not granted. Is it okay for the President to ask what committee? Also, on the Charter; definitions cannot be changed by the Assembly, needs to be changed by the voters correct? Member Sampson raised concern to being asked to be appointed; at least have an idea of the committee structure not for the sake for going on a trip. We need to ensure we abide by budget and Charter. If you’re not sure; ask. Member Loon mentioned that we should ask ourselves, will the residents of this Borough benefit. Ask our Mayor. Staff or Assembly will this help our people. She was hurt that Walter haven’t been informed for the RACK meeting in Selawik; she informed the Assembly and no one was there.

President Weisner mentioned the lack of travel; continue to be frugal since the ongoing litigation with Teck. Member Carr raised concern to the protocol to the committee structure; she look forward to working with everyone. Don’t be too frugal; some trips maybe be critical. For activities; can it be on the calendar so we can be aware of meetings. President Weisner suggest to members to keep in mind of the committees that you’d like to be on based on Assembly discussion as a whole. Member Hadley raised concern to any rules or regulations that we can pass for any hunting in this area? Member Carr mentioned that she had trouble accessing the website; still showing Mayor Joule. President Weisner also mentioned the Facebook page. Member Sampson mentioned that the authority lies between State of Alaska and Federal Government; it’s their responsibility to manage all species of resource however we can participate as public to make recommendations to proposed regulations. Member Westlake mentioned we all represent the same people; we have a divided group, caribou, federal, state and we all need to get together and meet. President Weisner summarized the joint working group with North Slope Borough. Member Sampson mentioned once we had a leadership in process, although it is broken today; we don’t see NWALT meet anymore. We need to reinforce this group. Member Loon mentioned the we have the following; national park service, Cape Krusenstern, Gates of the Arctic, Lower/Upper Kobuk Monuments and other committees that are in those that support RACK. We need to be one voice.
Acting Mayor Smith mentioned that there has been preliminary discussion with North Slope; specifically on the caribou issue. Working on a joint resolution to support member from Northwest Arctic to be the chairman. Also, discussed the NWALT which will start up again.

Member Sampson enforces the discussion with North Slope; we need to participate as an Assembly to reinforce what the Borough is trying to do.
