

# Northwest Arctic Energy Steering Committee

Co-Hosted & Sponsored by:

*NANA Regional Corporation – Alternative & Village Energy Program*

*Northwest Arctic Borough – Energy Program*

March 8<sup>th</sup>-9<sup>th</sup> 2023

Nullagvik Hotel

Kotzebue, Alaska

Call in at 1-800-315-6338 code 31001#

## DRAFT AGENDA

### March 8<sup>th</sup>

- |            |                                                                                                                                                                                                                     |
|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 8:30 am    | Coffee Opening Prayer & Welcome (NANA & NAB)                                                                                                                                                                        |
| 9:00 sharp | Introductions – all participants                                                                                                                                                                                    |
| 9:30       | Review goals/objectives/action items from last ESC – how did we do?<br>Including latest data on fuel cost and usage– Ingemar Mathiasson                                                                             |
| 10:00      | Shungnak-Kobuk IPP/ Solar/Battery project, update (NAB)<br>Noatak IPP /Solar/Battery project, update (NAB)<br>REF 14 Engineering 4 Solar projects Selawik, Noorvik, Kiana & Ambler<br>Old Crow, Yukon Solar project |
| 10:40      | Selawik REPP Grant for Solar PV/Battery update (Deerstone)                                                                                                                                                          |
| 11:00      | Coffee fill up time                                                                                                                                                                                                 |
| 11:20      | DOE update, DOE Givey Kochanowski & Dan Smith<br>And Kivalina K-Hill Wind-Solar project update                                                                                                                      |
| 11:40      | Kotzebue Electric Association Solar project and expansion                                                                                                                                                           |
| 12 noon    | Lunch (provided)                                                                                                                                                                                                    |

1:00	Department of Energy Inter-Tribal Technical Assistance Update, Deering/Buckland DOE Solar Grant Update, USDA Battery Update – Devany Plentovitch & Deera grants for Generator upgrades
1:20	AVEC updates
1:40	ACEP-KEA Heating project with excess wind.
2:00	Ambler Biomass project, ANTHC
2:20	NAB Regional Water & Sewer support update ARUC
3:00	Break
3:20	NANA initiatives and Household needs (Energy appliances)
4:00	Regional Bulk fuel upgrades and options for transportation
5:00	End of day

## AGENDA

### March 9<sup>th</sup>

8:30 am	Coffee Opening Prayer & Welcome (NANA & NAB)
9:00 sharp	Energy Independency & a sustainable future (discussion)
10:00	Interties & Right of ways
10:20	Training & Education for Energy Projects Innovation Network/Community Hub (ACEP)
11:30	Kotzebue Clean Energy Coalition
12:00	Lunch
1:00	Community & Regional Priorities & Needs – All Participants Capital Project list (suggestions for new Energy projects)
1:30	Timing & Location of Next Meeting & Adjournment
